

THE FUTURE

"We can choose to make the success of all humanity our personal business. We can choose to be audacious enough to take responsibility for the entire human family. We can choose to make our love for the World what our lives are really about.

Each of us now has the opportunity, the privilege to make a difference in creating a World that works for all of us. It will require courage, audacity and heart. It is much more radical than a revolution, it is the beginning of a transformation in the quality of life on our planet. You have the power to fire a shot heard around the World.

If not you, who? If not here, where? If not now, when?
